

# KERBOODLE- WHAT DO I NEED TO KNOW?

## HOW DO I LOG IN?

- When you are matched with your TAP student you will be added to our list of tutors that can access Kerboodle
- Every 48 hours this is uploaded to their system and you will receive an email prompting you to create your account and password (this email is only valid for 48 hours)
  - When you want to log in just head to <https://www.kerboodle.com/login> and enter your username and password.
- If you have not received your email with 2 days of being matched please email [resources@theaccessproject.org.uk](mailto:resources@theaccessproject.org.uk).

## MY LOG-IN HAS BEEN DEACTIVATED HOW DO I GAIN ACCESS AGAIN?

- It is really important you activate your account within 48 hours.
- If you are unable to do this please contact [resources@theaccessproject.org.uk](mailto:resources@theaccessproject.org.uk) and we will arrange for the email to be re-sent by our partners at the Oxford University Press.

## WHAT SUBJECTS CAN ACCESS KERBOODLE?

- Currently we have Kerboodle packages available for Maths at GCSE and A Level in the Edexcel and AQA exam boards (which covers the majority of our students).
- Kerboodle packages are also available for GCSE science in Edexcel, AQA and OCR and A Level Sciences (chemistry, maths and physics) in Edexcel and AQA.
- We hope to expand this in the future

# KERBOODLE- WHAT DO I NEED TO KNOW?

## WHAT RESOURCES ARE AVAILABLE FOR ME TO USE ON KERBOODLE?

- Each Kerboodle package contains: Your subjects digital textbook, worksheets, topic checklists, lesson plans and past papers
- You can also set your student assignments within the platform which will be auto marked when they are completed.
- To find the additional resources click on the topic in the textbook and click on resources
- Check out [this video](#) to find out more.

## CAN I USE IT TO PLAN MY TUTORIALS?

- It is a great idea to use Kerboodle to plan your tutorials.
- The digital textbooks contain numerous activities or questions you can use to structure your tutorial.
- You can also find exam questions using the resources and other worksheets via the lesson plans.

## CAN I SHARE THE RESOURCES WITH MY STUDENT?

- One of the really useful features of Kerboodle is you can download and/or take screenshots of the resources and then upload them to the TAP online tuition platform.
- Your student can also access Kerboodle (please note: this could take around 3 days after matching)
- To log-in they can visit the login page, type in their username (initial of their first name and surname in lower case. EG. asmith is Anna Smith). Their password will be the same as their username.
- There is a video that explains how to share resources with students [here](#).

# KERBOODLE- WHAT DO I NEED TO KNOW?

## CAN I DOWNLOAD THE RESOURCES OR DO I USE THEM ON KERBOODLE?

- You can do both. From sharing your screen, downloading or taking screenshots of resources it is really simple to use them in tutorials.
- We recommend you use a mix of these approaches, do what works for you and your student. They may have experience using the platform in their school too.

## HOW DO I USE THE RESOURCES IN KERBOODLE WITH THE RESOURCES IN THE GDRIVE?

- You can still use the topic resources on the GDrive and you can use them in parallel with the resources on Kerboodle.
- Use these resources to create a well prepared tutorial every week that has a clear objective, starter, main and plenary activity.
- You can select different elements of Kerboodle, the GDrive and any other resources you find on the internet (such as TES) to plan your tutorials.

## WHAT ARE THE ESSENTIAL FEATURES I NEED TO KNOW ABOUT ON KERBOODLE?

- Digital textbooks: These are the same textbooks that your student will be using in school. They are really clear on how a topic will be assessed in exams which will be very useful for planning your tutorials.
- Finding topic resources: Using the textbook contents page you can find a list of topics and select resources. This brings up all other resources relating to that topic such as checklists, worksheets and lesson plans. It even sometimes includes podcasts and videos!

# KERBOODLE- WHAT DO I NEED TO KNOW?

## HOW COULD KERBOODLE HELP ME PLAN REVISION TUTORIALS?

- 
- A lightbulb icon inside a speech bubble, set against a light blue circular background.
- The digital textbooks are great for revision questions and checklists on topic areas students should revise.
  - Kerboodle also has numerous revision worksheets and exam questions in the resources section of the site. You can create assignments for your students with a mixture of questions on topics that you select. These can often be "auto-marked" so you can easily see where your student went wrong or is doing well.

## WHAT TOP ACTIVITIES CAN I USE KERBOODLE FOR?

- 
- A computer monitor icon with a person silhouette on the screen, set against a yellow circular background.
- Kerboodle is great for completing 'worked examples' by using the exam questions.
  - Upload the question to our online tuition platform to begin working through the answer with your student
  - It's also really great for taking a student through content they need to learn or remember - the digital textbooks come in especially handy for this.
  - The worksheets and questions work really well for summary activities.

## ARE THERE RESOURCES FOR ALL EXAM BOARDS?

- 
- A flag on a path leading to a finish line, set against a light green circular background.
- We have purchased subscriptions for the subjects and exam boards our students require the most support in.
  - We are always looking to add to these subscriptions and we will notify tutors as any new Kerboodle packages become available.
